

Our Top 5 Office Fit Outs

Mark Tomlinson and Chris Proctor of FHP Property Consultants present 5 of their favourite office fit outs from around the globe.

Mark Tomlinson commented “The office strategies of many companies have changed over the past few years with a real shift towards creating a social, collaborative and informal environment. Companies want their employees and clients to feel welcome and comfortable within the working environment, that way they spend more time at work because they don’t want to leave!”

WeWork – Corsham Street

Size	:	40,000 sq ft
Location	:	London N1
Sector	:	Co-working
Price	:	Desk £400 pcm Office £750-£5360 pcm

The co-working spaces that WeWork are creating really do have an inspiring feel with no walls separating the main desk clusters. Private offices can be rented but the main focus is on a collaborative working environment. These guys have spaces in America, around Europe and in London. Next Stop Nottingham? Approximately 182 miles of cable has been installed in the three most recent WeWork projects. That is the length of a drive from London to the Isle of White and back again...

Discovery Network Benelux Offices – Amsterdam

Size : 6,458 sq ft
Location : Amsterdam, Netherlands
Sector : Film and Media

By replacing some dense fire resistant walls for glass versions the sightlines run clearly from the entrance all the way to the back of the office which creates an ultimate feeling of transparency and lightness.

We would challenge anybody at FIFA and still stay on top of important admin!

Dropbox – New York City Offices

Size : 12,000 sq ft
Location : New York City office new Union Square
Sector : Technology

Throughout the office, a variety of seating options, from bar-height tables and stools to couches, give workers a variety of places to work. Dimmed overhead lighting, with flexible task lighting throughout, makes the space feel even less “office-like.”

Weekly Office Space – San Francisco, California

Size : 33,000 sq ft
Location : San Francisco, California
Sector : Technology

Weebly's open, collaborative environment features multiple work settings, levels of privacy, and a benching solution that gives each user the ability to work sitting or standing. Table tennis bat in one hand, phone in the other, multitasking at its finest.
