

# Press release 2017

## OFFICE REFURBISHMENT COMMENCES AT WATERFRONT HOUSE

Beeston Business Park LLP have commenced the refurbishment of the HQ office premises at Waterfront House on the established Beeston Business Park. The offices, which provide a single floor plate of over 21,000 sq ft at first floor level with an excellent car parking ratio are due to be refurbished to a high standard incorporating new lighting, suspended ceilings and a substantial refurbishment of the air handling to provide a Grade A specification. Once completed, this building will provide one of the best quality offices available in greater Nottingham of this size with a further 40,000 sq ft due to be released later next year.

We anticipate a 12 week refurbishment programme and hope to have the space fully presented and ready for occupation by March 2017.

For further information on the opportunity here, please contact Mark Tomlinson on 07916 576 254.
