

REFURBISHMENT UNDERWAY AT DAVY HOUSE AT PHOENIX BUSINESS PARK

Works are well underway at Davy House as our clients have pushed the button on the substantial refurbishment of their 6,500 sq ft detached office building close to Junction 26 of the M1 motorway on the established Phoenix Business Park which benefits from excellent car parking, being located outside of the Workplace Parking Levy and a 1 minute walk from the park and ride and tram terminus.

Mark Tomlinson of FHP Property Consultants commented:

“The view was taken that in order to achieve best value and to make the building cater for modern office requirements, that a substantial refurbishment is required to bring this space back to life. This will follow a similar style of refurbishment to those we have carried out at Castlebridge Office Village where we have welcomed tenants such as Specsavers, Avery Dennison, Fat Free Media, Graphisoft and Sumo Digital to the park, among others. This really will be a fantastic clean and modern space when the works are finished. We expected works to be completed within the 12 weeks and early interest is invited on the property.”
